

## February

Created by Michael Lillie

**It got a bit wet in my slumber place. I thought I was in a deep sleep but soon realized that Mother Nature, thanks to my Human Co-inhibitors of the Planet, truly suffers from Climate Change. So I decided to move around a bit, poked my head out of the burrow I had dug for myself and saw a familiar creature. MY, it is Mr McKrekor, Lilian's friend who I met last year. He was a bit startled to see me so early in the year, guess he was wondering where my young one was, except I was a bit too young this time around and have to wait till next Winter to become a Mother.**

**nin“Just looking around for a minute and try to see if the world is still there, it was so turbulent when I decided to take my Winter position.”**

**“ Turbulent, you can say that again, if you needed peace and quiet so close to Lilian's house is the wrong place to hibernate. She religiously watches all the news channels, compares news stories and spend much time on the phone so she is able to fulfill her promise to keep her friends informed enough to hold down a water-cooler conversation, she calls it. Lately she does look a bit stressed I think she is really concerned about the status of the Country. USA has been her home for the last 52 years and her knowledge of history is pretty broad, she tries telling it to her grand-kids but it is hard to understand without a point of reference.”**

**“ So tell me about the last few weeks, in a way I always think I miss something while sleeping, Sometimes nothing changes but I am assuming that is not the case at the moment.”**

**“ I have been busy with the wife and our most unusual son, we hatched a Kukuck you know and it is such a responsibility to raise a mixed race bird, The things we have to watch out for and the discrimination we have to put up with. Guess I can feel for our human neighbors, it's so messed up, so messed up.”**

**“ Explain please Mr McKrekor.’**

**“ Our home has not been quiet the same since the new administration came in, everything is so hostile. That of course spilled over into the animal world and even the plant life, a new danger at every corner. Some humans are Sensitives, they feel everything around them. They pick up peoples illnesses, pain, anxieties and moods. Some are very sensitive to Earthquakes, Vulcanos, High Tides and anything out of the ordenary. They are having a very hard time functioning and now there is also a celestial event some of them are dealing with.**

**A cosmic event not seen in 36 years -- a rare "super blood blue moon" -- may be glimpsed January 31 in parts of western North America, Asia, the Middle East, Russia and Australia.**

Some say we are running dual realities, which brings me to a bit of a mystery Lilian is trying to figure out.

Her Predictions 2018 Show has 38901 on YouTube. There were several hundred comments, almost all positive. A few from people who make it a habit to criticize everything and that is OK. And there was THIS:

[Agent Grey 2 weeks ago](#)

*We are not mere observations; we are consciousnesses just like you. Our existence is a reality, but the majority of you do not perceive it yet because we remain invisible to your senses and instruments most of the time. Lilian you have been abducted more than once. We must take you again soon. Your information is vital. Soon.*

[Agent Grey 1 day ago](#)

*We are a parallel reality version of you, in a different time-line that's similar to yours and we developed down a different path. Do not worry for we know your thoughts, we are always watching, always listening. You are I and I am you. Your information is vital, your information will be taken. Your day is coming soon for abduction. You will return.*

**I was sitting on the woodpile when Lilian read it. She has been answering the almost 300 people who left a comment but when she got to this the page did not exist. She called someone who specializes in strange websites..... what made her think it was genuine was the fact that her name was spelled correctly. Almost everyone mutilates her name. The friend was unable to locate the URL. She then asked James Clarkson a fellow UFO Investigator and ex Police Detective. He was unable to get to the bottom of it. Finally on 1.28. 2018 she asked someone who REALLY knows about things like that and he thought someone created an account, posted and then deleted the account. That may be true but it reminded Lilian of other instances when such strange things happened and she got messages in very unusual ways, some electronic.”**

**“OH OH this is a bit wild for me how am I suppose to get back to sleep after that?”**

**“ Come on, look how big you are and I am but a meager little crow and I am not concerned. If you want to hang around Lilian you might as well get used to unusual things, she is after all the Person Of High Strangeness. Pretty soon I have to get back to the Missus so let me bring you up to speed.”**

**“ So where did you think it came from?”**

**“ I don't know, some people just have a connection the the Universe and I cannot explain that.”**

**“ OK give me the highlights to the month I slept through so I can get back to sleep.”**

**" Floods in France.**

**US Government was shut down because the President held the DREAMERS, children brought to America by their parents illegally, hostage. He wants to build a wall between the US and Mexico. He demanded Mexico pays for the wall, they declined so he attached EVERYTHING he could think of to the budget and held the DREAMERS hostage in exchange for the wall. The fight is ongoing, Government has reopened and the outcome will be decided in 10 days.**

**There is a flu epidemic and many people died, mostly children and elderly.**

**Weather in January was ungodly around the world, Poles are melting and the rest of the world is freezing in a very unusual way.**

**45 (President) declared war on the Press and not even slowing down with his wild accusations while visiting Europe. He put a 30% Tariff on Solar Panels and imported refrigerators and it is said that he spend 24 million on a new refrigerator in AIRFORCE 1. I do hope that is the only Fake News, as he calls it. Imagine how many people he could feed with 24 million Dollars. Jobs are being moved and outsourced, Lilian's daughter lost her job after 13 years, it went overseas.**

**A Medior came to Earth, here are the details:**

**North and South Korea have decided to join forces at the Olympics in South Korea much as it was in 2006 and heard it said 45 (President) was not happy**

about it.

**The Doctor in charge of the American Olympic Team who molested in excess of 150 young Athletes over a 20-year period was convicted and sentenced to 175 years in prison.**

**The women March of 2018 was impressive, [beginning of 2018 Women's March in NYC](#)**

**Aerial footage shows thousands of women gathered for the second Woman's March in New York City. The footage shows protesters at the start of the march. Marches were planned world wide.**

**In New York City, for example, it's estimated that [more than 200,000](#)**

protestors marched this year — about half the number of people in 2017. According to local news stations, there were approximately 50,000 protestors in San Francisco, 500,000 in Los Angeles, more than 40,000 in Oakland, tens of thousands in Seattle, and more than 10,000 in Washington, D.C.

Someone invented Airbags for hips so when people fall they won't break the bones.

“I thank you my friend, the world is a mess, I guess I can do without the news for a few more weeks. I saw flocks of birds traveling North and some of the Rhododendron are trying to bloom in the Great North West, even at that I am not ready to come out of my burrow, please keep an eye on our friend in case she really does get abducted. Maybe they fix her while she is gone, she went to the new Doctor to get her medicine refilled, while there she requested DR listen to her lungs. Dr said rule has it to only discuss two things to make an appointment and attempt another 100-mile round trip. Not sure in which language she told HIM where to go.”
