

## May Newsletter

Commander here reporting from Old Highway 99. Yes it's been that kind of a month. Not sure what to call it, turbulent, all over the place, insane or oh well, this is our new normal. More and more the country is dividing and grouping off so I am happy I have at least one of MY KIND to kick it with and try to make sense out of the behavior of mankind.

We, Crooket, and myself were hanging out at Lilian's. In a way it is our earthly home, besides that it is a safe place where we are accepted and we keep her company. Besides we enjoy the going on's and the fact she talks to anything and everybody willing to listen and it gives Crooket and me subjects to debate. She listens to the news a lot and her new thing is listening to Trevor Noah, the host of the Daily Show. We were kind of wondering about that. Just about then she had an epiphany and verbalized it a few times, loudly. At the age of 10 her life was not an easy one and she created a different reality for herself. In that reality her "CRUSH" and Savior was a young Zulu trumpet player. Hugh Masakela. Her admiration for him remained with her the rest of her life. Hugh being one of the musicians who used his voice to change many things in the world during Apartheid in South Afrika. These were terrible times and not until Nelson Mandela was freed from prison and elected President did changes occur. Lilian eventually did meet Hugh, in fact her and her granddaughter went to his 62<sup>nd</sup> Birthday Party. That wonderful energy he radiated as a young activist was still present and she thanked him for his contribution to the Planet. There were many FUTURISTS in the Music Industry. This brings me to Trevor Noah. Lilian was wondering why she felt so attached to the young Zulu Comedian not only about his talent to address subjects no-one else is able to deal with, his comparison of events and attitudes about life in different parts of the world and maybe the fact that many people he makes reference to she either knows in person or is familiar with. The epiphany took place when she remembered what Hugh Masakela looked like as a young man. See for yourself!

Used under fair use

It is the ENERGY both of these men possess she recognizes and relates to. Sixty one years later she designates to the same kindred spirit energy and it gives her comfort to know these fellow human beings have graced the Planet with their presence accomplishing many things no-one else is able to.

There are repeats in life, some we are made aware of and others we miss. April was so utterly crazy, ever changing and few were able to keep up. Time, it seems is moving at a tremendous speed, sometimes just trying to recall the day at the end of the night is a challenge. It IS important to look back on the day, if one doesn't one can miss the lessons, where needed, and change can not take place.

Millinials use the word Deja Vu quiet often, When asked what it means they refer to things they have experienced before but seldom equate it with world events.

Vanya Arnold, Lilian's granddaughter committed suicide 4 years ago. Today is the reoccurring date of that tragedy.

During an anniversary of an event one is able to transport memory of the pain back to the time in which it took place. In case of a death grief remains, but intensifies at certain times like an anniversary. This holds true for pleasant memories also.

At one point Lilian lived in Dubach LA, a little town on the outskirts of Ruston LA.

When the deadly Tornado hit Ruston that time period was revived in the families minds.

Time is not linear so it is hard to tell...and only a small percentage of the human population even realize this fact... when parallel time periods are experienced. How does one know when past present and future merge. With Earth Changes, shifting of the Poles and changes in gravity and the magnetic field even skeptics have to acknowledge something is out of the ordinary. Dimensional shifts in time are not uncommon so add every day stress to that and there you have it! APRIL was insane because more and more these shifts become apparent with few understanding what is happening.

“Why are you so quiet Crooket?”

“ Well Commander you was on a roll talking about everything you worked out in your timeline, I was quiet because I wanted to make sure I can follow your story-line. So you think it will remain this hectic?”

“I do. Much information is on TV and Internet but life is so busy few pay attention. They about have to run at least two timelines to fit everything into their daily life just taking care of their necessities, besides experts and scientist use a vocabulary not understandable to many. Even some Collage educated people have trouble understanding what is being said since most are familiar with the subjects they study but not in other areas. Especially if there is no interest. So many are over loaded and frankly sick of what is being discussed lately. All hatred and untruth and there are few examples of Leaders to look up to. Humans have a lot of fixing to do.”

“Like PDQ. Pretty damn quick! So tell me bout Lilian's WORMHOLE.”

“ It was not Lilian's wormhole, she said it felt like it, it was the only thing she could compare it to as described in the dictionary: **hypothetical structure of space-time envisioned as a tunnel connecting points that are separated in space and**

**time.**

She is still ill and was on her way home from the Clinic for an update on her dilemma. It was a beautiful sun shiny day. All of a sudden pitch black clouds came up around her, as far as she could see. Ever so often there were also a few yellow Sulphur clouds indwined. Birds flew dangerously low and were yelling in flight.

She stopped at the store to ask if someone could please check for a weather alert. There was none. She then went to the local Airport and requested a weather report. She was told earlier an advisory had been issued for small aircraft. She asked how high up in the Atmosphere. They had no answer. She made a 3<sup>rd</sup> stop at a gas station and again, there was no weather alert. When she looked up she saw the unanimous clouds as far as the eye could see were all around except where she was. It reminded her of a picture of a wormhole she saw and a clear circle shaped blue sky above her, no rain, no wind, no lightening she said she felt like she was in a wormhole. **She did not want to go home because of this strange sensation and premonition.** When she got home eventually there here were branches spread all over her property and a crane fell in Seattle 67 miles away. 4 people were killed.”

“Like in parallel time?”

“ No, just figuratively speaking **in the same time frame.**”

“ **And then what? Last question because I am leaving for the evening.**”

“ **And then she went home, collected her thoughts and watched a live feed to Gathering Of Nations 2019 which had been provided by some friends. She was never able to attend in person so it was this year due to her illness and the friends thought she could participate this way. And she did!**”

Nipsey Hussle was murdered and John Singleton died of a stroke. So many are leaving, maybe the negative energy of the people just got to intense for them and they chose to leave in groves.

Lilian purchased 10 balloons. They took up the whole back of the car. She ask for assistance driving because her vision was obstructed. She explained to her young “CO-PILOT” that one must be able to see everything. The way things are in the world now instead of a middle finger one will now get shot.
