

November Newsletter

Commander coming to you from space facing an imaginary wall which is just as ridiculous as the planned wall and money pit proposed on the continent of America. As time moves right along it becomes more obvious daily what a waste and how sad something monstrous like this takes priority over Human issues. Issues and solutions as to improve lives of inhabitants of the planet which are...oddly enough... all made from the same components all over this Blue Planet I am looking at from here,

As 2019 is slowly nearing it's end with the visits with Crooket and some of the friends we made I wonder if our observations even made a difference in behavior. I have often wondered why there is a fiscal year and a regular year. From what I can tell the change of the fiscal year made little or no difference. Google lists it as the following:

Fiscal Year Versus Calendar Year. A fiscal year is a 12-month period that an organization uses to report its finances. It starts at the beginning of a quarter, such as January 1, April 1, July 1, or October 1. ... Most organizations must use this because it's also the tax year.

Google also informs us there are 24 time-zones: ***This is because when it is daytime on one side of the earth, it is night-time on the other side. There are 24 time zones dividing the earth into different times, each with its own name, like the North***

American Eastern Time Zone.

It appears one thing is **UNIVERSAL** on Earth. **MONEY**. Not the currency it is the monetary value attached to everything. Unimportant is value of environment, human live and principle. Not for the first time, but at the moment Humans have managed to put themselves into a very vulnerable position. What is a first is that this time it involves survival of the actual Planet because so much has been mismanaged on the part of people due to greed.

Where is that Crooket, hate conversing with myself. Oh there he is. OH OH, Wall gone and look a there. Look a there.

“At Ease Crooket. We have 8 more weeks to observe so we can inform our space

Brothers what not to do and to take lessons from the experience of Earthlings as what NOT to do. Just be glad this is only imaginary. What is real is that what they refer to as Space Junk is already falling to Earth...operational in Michigan I may add.”

“ No wonder they thought they had a need for a Space Force. But with all due respect Earth has had calamities before. It killed the dinosaurs and don't forget the flood.”

“ You are right. This time the danger is caused by stupidity and man made. Lets get back to Lilian's and concentrate on the lighter side of Human existence.”

“ Don't know about lighter side, things have been sad there also. She has been very ill all month and according to her she thought she wanted to leave the Planet. At one point she was very frustrated, besides her physical ailments, because she was not able to take care of herself and people meaning well upset her a great deal with unsolicited advice instead of helping with her predicament such as meals or just a little housework as well as helping with errands since she still is not able to drive. I heard her talk on the phone on one of those advice giving people. She explained that people need to realize that only after having exhausted all avenues and asking for advice, it is very upsetting when unsolicited advice is given. It plays with ones intelligence, especially if everything medically has been explored by professionals. Fresh air and change in diet along with exercise is not recommendable when one can't walk and is not able to eat for a week unable to keep down ones food. She suggested to get help with everyday living, which was followed by silence and well wishes. She also explained that when people are ill they rest as needed, the phone ringing disturbs ones rest, especially if all the caller wants to do is talk about themselves and the conversation is irrelevant to the sick person at that time.”

“She did manage to film her Prediction Show and stopped at the store for a couple of things before she fell on her face again, so to speak. She kept track of the headlines and it was a rough month. Impeachment hearings for the President, indictments of many people in high places connected to the present administration and MANY different opinions occupied the airwaves. The death of politicians saddened many.

Elijah Eugene Cummings was an American politician and the member of the U.S. House of Representatives for Maryland's 7th congressional district. The district includes just over half of Baltimore City, most of the majority-black precincts of Baltimore County, as well as most of Howard County. [Wikipedia](#)

John James Conyers Jr. was an American politician of the Democratic Party who served as a U.S. Representative for Michigan from 1965 to 2017. The districts he represented always included part of western Detroit. [Wikipedia](#)

Elijah Eugene Cummings (January 18, 1951 – October 17, 2019)

Former Rep. John Conyers dies at age 90

“Americans love holidays. Did you know that Commander?”

“Yes I do. Did you know that Columbus Day was dropped by many in favor of Indigenous People Day? When Columbus came to America in 1492 few knew what consequences this presented for the Indigenous population of the continent. Columbus Day was celebrated during the 1800's and became a Federal Holiday in 1934. It is only reasonable that with today's understanding of the impact the “discovery of America” created that Indigenous People Day would be substituted.”

“When the order came to abandon the Kurds, Allies of America, it triggered something in Lilian and she had a couple of days when she remembered her childhood. Occupation after the war. Things started to settle down after the war but much remained in peoples consciousness and people were grateful for the protection rendered. People had started to rebuilt their lives. She remembered playing in ruins and finding duds, live bombs in the forest while looking for mushrooms, never knowing what would be discovered during times of hunts for meat etc. She tried imagining how the Kurdish people feel now that they have been abandoned, nowhere to go and in grave danger from their occupiers who are NOT friendly and protectors. She thought about immigrant children

still in cages in America. She knew it was not the first time children were ripped from their parents arms. It happened to Slaves and Native Americans. She never thought she would see it happen in her lifetime. Maybe it was because she was so ill and emotionally overwhelmed that she was so effected by the news. While driving to the Clinic she encountered ICE driving through the neighborhood. An SUV, An Armored Vehicle and a second SUV. All black and she could see the Agents in the vehicles. In their full attire. It disturbed her to no end, it was scary. When the President compared the investigation for impeachment to a Lynching she read many accounts of that term.

She found a map of Lynchings and thought it may serve a purpose to research that subject. This is the time when everything is fact check. Even though everything is judged by today's standards some things and terms maintain the same meaning.”

“ Fires are raging across California and millions are without power. Storms are predicted for many areas in America, floods in several countries around the globe and the snow has started in placed prediction a severe winter.”

“So Crooket if you don't tell me something happy or good I am going to get drunk, I spotted a 20-year old bottle of Champagne in the cabinet.”

“OK GOOD NEWS, here it is. Most people have a warm place to live. Most people have food to eat. Most people can still speak their mind. Many people show love even under present circumstances. Mini skirts are back, Coffee is on sale in most stores and Applebee's has a 10 Dollar dinner special as we speak!”

Taylor opening statement

1 of several E-mails I received last week

Waiting anxiously for your October predictions update. I hope you are able to do one this year. Hoping for good news. Thanks again Lilian for the shows I really enjoy them. Also hope everything is going well for you too.
